- 2. Goal:** More than forty percent students are from economically weaker section of the society. They are the daughters of daily wage laborers. Some among them commute every day from distance places (From ten to thirty km distance). Such students have been identified and the college and the management felt that there is an urgent need to feed them so that they go without hunger until the evening.

Hence, the main objective is to feed the hungry stomach.

This scheme is first of its kind in the history of first grade colleges perhaps in the state even government first grade college do not have this scheme.

- 3. The context:** The management has highly mechanized kitchen and vehicle facility with a large staff in its technical institutes. To exploit the full potential and to feed the hungry stomachs and to encourage the women education. This scheme has been introduced more over the management is committed to make this women's college a centre of women empowerment In every sense of the word.

- 4. The practice and the evidence of success:** This scheme is in practice for the past seven years. A special committee is constituted to monitor the scheme.

Every year the list of needy students is prepared. The lunch arrives at 1 pm every day. One hundred students are beneficiaries of this scheme.

The success is evident through drop out rate, and improvement in the attendance. Attendance until the last period has improved considerably. Such students also take active part in sports and cultural activities even after class hours as they are fed stomach full.

- 5. Problems encountered and resources required:** The free mid day meal scheme is problem free. This is going on without hitch. Resource requirement is looked after by the management. Since our management is a big management with forty two institutes resource mobilization has not been a problem.
